LE MANS TEAM CHALLENGE

A **6-minute** qualifying session determines the driver teams. Each team drives one kart throughout the race. Pit stops include a driver change with each team member driving **two 10-minute** stretches for their team. The team completing the most laps determines the winner. (*Ask us about making this race longer*)

2 HOURS

A TRUE TEST OF STRATEGY AND TEAMWORK

INDIVIDUAL TO TEAM RACE

An **8-minute** qualifying session determines the driver order. Each driver competes in an **8-minute** individual race. That outcome determines the 2-man teams that compete in a **20-minute** team race. Drivers change after 10-minutes. The team completing the most laps determines the winner. (*maximum 28 people*)

2 HOURS

A COMBINATION OF INDIVIDUAL & TEAM RACING

SUPER REVERSAL

A **6-minute** practice session, followed by an **8-minute** qualifying session to determine the race position for a **10-minute** main race. The outcome determines the race position for the final **10-minute** heat where drivers test their skills... in reverse order. Not as easy as it sounds.

THE CHALLENGE OF AN ENTIRELY NEW TRACK

SUPER PRIX

The super-charged version of our popular MINI PRIX challenge. A **10-minute** practice session, followed by a **10-minute** qualifying session determines the race position for the final heat. All karts are lined up in grid formation as drivers compete in a final **10-minute** race to the checkered flag.
